Done 9/21/68

Met Machines

NW beach

Examined 1620 11/20-
Clock stopped. Flicked switch to red dot & back to green, and it started.

Temp pen off paper. Rotated gray bar under pen arm until flat side was up, allowing pen to settle on paper.

Visited
11–11:30 am 11/21

clock wound
chart roll replaced
started 11:30 am

Ran wind vane 360° several times to make base line start.

Met Machine - Cente

checked 1820 11/20
Wind recorders set off of chart,
Flipped the knob that lowers
them into recording position.

checked 9[55] am 11/21
clock running, but chart
not advanced (since October)
Advanced chart and
re-set wind recorders
at hour 22 on chart

If not advancing properly
at December visit, recommend
it be taken back to Barrow

Spare temp. pen in floor of machine,
but no tool to attach it.

(20 yds north of cement pedestal
labeled Astronomical Marker on map)
